French Study Determines Antioxidants Applied to Skin Reduce Long-Term Skin Damage. Paul Harvey once referred to this French Study (1998) on the radio. **Estee Lauder Companies** was the only cosmetic company selected to participate in the SU.VI.MAX. study. The most profound results, obtained after 12 to 18 months of treatment, clearly showed a marked improvement in the condition of the skin treated with a preparation containing the antioxidant blend of vitamins C, E and beta carotene and vitamin A oil, compared to that treated with the placebo.

Balance of Nature™ Antioxidant Serum is richer than the few vitamins oils used in the study, Our serum works fast to rebuild collagen and correct pigment, and is even more effective in healing scars with Alpha Lipoic Acid, DMAE and Organic Rose Hip Oil' All three help to break down that injured collagen and allowing it to re-form in the correct structure, reducing acne scarring, pigmentation scarring on the face and body.

ORGANIC ROSE HIP OIL is the main anti-aging ingredient, as well as a wrinkle reducer, and contains Vitamins A and E, but is also rich in Vitamin C, containing more than 20 times more Vitamin C than oranges. Organic Rose Hip Oil is essential in the formation and synthesis of collagen in the skin. Without it, your skin would age prematurely.

Pure Emu Oil contains a variety of elements that are highly beneficial as a skin serum including vitamins E and A, both major antioxidants known as healing agents; vitamin It is an effective skin repair agent, oleic acid, a skin regenerator, a natural treatment for burns, and an anti-wrinkle agent for the beauty and protection of your skin.

Expeller Pressed Grape Seed Oil in this pure virgin form retains the high amounts of vitamin E, vitamin C, beta carotene, and other antioxidants; it is believed to be regenerative and helps control skin moisture and protect cells from unstable oxygen molecules that can ravage the body.

Research studies have demonstrated that when DMAE is applied to the skin it begins to work within 20 minutes of application, continuing to firm and tighten facial and neck skin, resulting in better facial tone and less sagging over time with use.

Alpha Lipoic Acid is the body's most important antioxidant, and has 400 times the antioxidant power of both Vitamin C and E.
